

SoundLens – Invisible Custom Hearing Product

SOUNDLens™
Featuring Voice iQ²

introducing:

SOUNDLens™
Featuring Voice iQ²

Think hearing aids should
be heard, not seen?
Then SoundLens by
Starkey is for you.

SoundLens, the first custom fit
invisible-in-the-canal hearing
aid, features Starkey's latest
technology on the market —
meaning it's completely invisible,
and totally designed to fit
your lifestyle.

**Starkey's best
technology in
an invisible* style.**

Featuring Voice iQ², Starkey's
latest noise reduction and speech
preservation system designed
to filter out background noise

Fits comfortably in the second
bend of your ear canal

Designed to be removed daily
to promote better ear health

Virtually no whistling or buzzing

Custom designed for your ear

Designed to work on the phone

Designed to fit your life.

No matter where you are or what you're doing, SoundLens is designed to make listening easier. It's the ideal hearing aid for people who are active and on the go, enjoy spending relaxing time at home — or both.

Morning walks & news programs

Birds, crickets & the wind

Movies, music & TV

Dinner and a night out with friends

Ball games

Lunch conversations

Theater & live music

Phone calls

Work meetings

Family time

BEST OF BOTH WORLDS.

That's because SoundLens fits comfortably inside the second bend of your ear canal—completely out of sight and completely off your mind.

Don't be fooled by its small size. Only SoundLens comes packed with Starkey's innovative technologies, including our latest feedback canceller, and noise reduction and speech preservation system. The result is a 100% invisible hearing aid that is designed to deliver:

performance

Utilizes Starkey's latest technologies to automatically recognize and reduce noise for more comfortable listening in loud environments.

comfort

Designed to fit snugly in the second bend of your ear canal.

personalization

It's the first invisible-in-the-canal hearing aid custom fit specifically for your ears and hearing needs.

Technology

Benefit

Invisible-In-The-Canal

The first 100% custom, invisible, digital and fully programmable hearing aid

PureWave Feedback Eliminator

Virtually eliminates buzzing and whistling

Voice iQ²

Designed to maintain speech understanding in noise and reduce listening effort**

T² Remote Control

Lets you adjust memory or volume settings using any touch-tone phone

Spectral iQ

Replicates hard-to-hear high frequency sounds in lower frequencies, designed to enhance and expand audibility

If you've been interested in extended wear products but have found you weren't a candidate, talk to your hearing professional about SoundLens, the latest in invisible hearing aids.
